A **module code** consist of an Alphabetical code of four (4) letters and a three (3) letter code, for example: ACCC111 or ECON222 or FMAN371

- **TG**

TG refers to a Timetable Group; for example: **TG 4B**, 4B referring to the allocated times assigned to the respective module.

1.2 Timetable Groups

- The composition of the class timetables is based on timetable groups. A timetable group is a set of modules for which exactly the same class periods are allocated per week. It is therefore not possible for a student to register for more than one module in the same timetable group, unless there is special provision by a lecturer to ensure that clashes in class attendance, tests and examinations are prevented.

- The timetable groups determine the module combinations that are available to students in accordance with the calendars. These requirements must be strictly maintained in the approval of new module combinations.

- There are nine Timetable groups each group has four slots except for TG 10 & TG 11. Below are the timetable groups;

Total 9 Timetable groups per week;

1- (6 hours)

2- (6 hours)

3- (6 hours)

4- (6 hours)

5- (6 hours)

6- (6 hours)

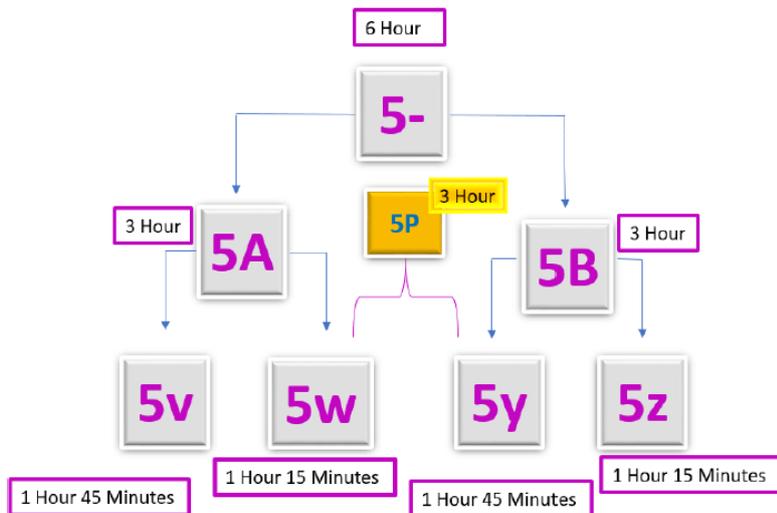

10 (1 hour 15 minutes)

11 (1 hour 45 minutes)

- Timetable provides for class periods between 7:30 and 17:45 from Monday to Friday. There are two durations of periods: 75 minutes or 105 minutes and 15 minutes available for class changes.

1.3 Division of Timetable Groups

- *Example of Weekly Timetable Groups;*

- The symbols v, w, y and z are used to indicate **sub-divisions** of time-table groups that are used to allocate periods to modules that will make use of one long session or one short session. **For example TG: 5A is a combination of 5v and 5w**

- Venues are indicated as follows: 6-G02

6 = building 6

G02 = room number
