2.1.1 This is an **EXAMPLE** of how a personalised timetable should appear after you follow the above-mentioned steps.

2.1.2 However, if you enter the Programme version code as displayed on your Proof of Registration, but your personalised timetable does not appear, then click on the following **links per campus below** to find the equivalent programme version code (**this is the list of the new Programme Version Codes that replaced some of the old Programme Version Codes**)

The grouping can be different years(Y1,Y2,Y3) of a qualification code .

Example : 1DNK01-L401E-Y1 (Bachelor of Arts in Graphic Design) Year 1

Choose your year level.

There are also qualification groupings based on teaching language. See which of the undermentioned is applicable to you:

With **Potchefstroom campus** if last letter before the “-Y” is **E** then it is English, if “**P**” would be Afrikaans (if it is only “P” please refer to year book)

Example :“5FKH05-E301**E**-Y1” for English class group for Year 1

“Example: 5FKH05-E301**P**-Y2” for Afrikaans group Year 2

With **Vanderbijlpark campus** if last letter before the “-Y” is **E** then it is English, if “**A**” would be Afrikaans (if it is only “V” please refer to year book)

Example :“5FKH05-E301**E**-Y1” for English class group for Year 1

“Example: 5FKH05-E301**A**-Y2” for Afrikaans group Year 2

**With Mahikeng Campus there will only be English groups.**

There are also groupings of a qualification that is focused on a choice subject, in other words, these are the modules you must choose from, in addition to your core modules and you would see it end with “S2, or S3 or S4.”

**2.2** Search by Sections is handy when you are a senior student repeating a module from a previous year or adding an additional module and need to see where in your current class timetable you should fit it in:

Search by Sections is used to look for your class groups per module code section. Type in the module code you are looking for, in this case BMAN111:

The screenshot shows a search interface with a 'Type' dropdown set to 'Sections'. Below it is a calendar grid with 'Mon 2/9' highlighted. A search bar is partially visible. A dropdown menu titled 'Resource(s)' is open, listing the following items:

- BMAN11
- BMAN111\_PMA\_001 (BMAN111)
- BMAN111\_PMA\_002 (BMAN111)
- BMAN111\_PMA\_003 (BMAN111)
- BMAN111\_PME\_001 (BMAN111)
- BMAN111\_PME\_002 (BMAN111)
- BMAN111\_PME\_003 (BMAN111)
- BMAN111\_PME\_004 (BMAN111)

A red arrow points from the search bar area to the dropdown menu.

When you start typing the module code, you will see all the class groups sections appearing in the drop down menu.

The class group of a module can be a divided up in sections, according to teaching language, or can be different groupings of certain qualifications.

After the module code you would see that there is a short code which is the section code, which can indicate the different class groups sections below is a table that indicates the section

<b>Section Name</b>	<b>Prefix</b>
<b>Parallel Medium Module (Course)</b>
