FACULTY OF HUMANITIES
UNDERGRADUATE

FAKULTEIT GEESTESWETENSKAPPE
VOORGRAADS

All universities in South Africa are obligated by law to take part in a National Project driven by the external regulatory bodies (Department of Higher Education and Training (DHET), the Council on Higher Education (CHE) and the South African Qualifications Authority (SAQA)), to align all qualifications with the Higher Education Qualifications Sub-Framework (HEQSF). It follows that the NWU is continuously in process of aligning our qualification and programme offering with the requirements of the HEQSF.

Students are advised to contact the relevant faculty to ensure that they register for the correct qualification, programme and /or curriculum, or to report any errors and/or omissions noticed. It is the duty of the student to ascertain that he/ she is registering for the correct qualification, programme and /or curriculum. The University will not be held liable for any damages students may suffer as result of neglecting this responsibility.

PLEASE MENTION YOUR UNIVERSITY NUMBER IN ALL CORRESPONDENCE.

The General Academic Rules of the University, to which all students have to subject themselves and which apply to all the qualifications offered by the University, appear in a separate publication and are available on the web page at: <http://www.nwu.ac.za/yearbooks>.

Please note: Although the information in this Calendar has been compiled with the utmost care and accuracy, the Council and the Senate of the University accept no responsibility whatsoever for errors that may occur. Before students finally decide on the selection of modules, they must consult the class timetable. If a clash occurs in the planned selection of a student, the relevant module combination is not permitted.

HUM.1 FACULTY RULES

IMPORTANT NOTE: PROGRAMMES WHERE 1ST YEAR COLUMNS ARE SHADED BLUE INDICATE THAT THE SPECIFIC YEAR IS NOT APPLICABLE AS THE PROGRAMME IS PHASING OUT.

HUM.1.1 AUTHORITY OF THE GENERAL RULES

The faculty rules valid for the different qualifications of this faculty and contained in this faculty calendar are subject to the General Rules of the University, as determined from time to time by the Council of the University on recommendation by the Senate. The faculty rules should therefore be read in conjunction with the General Rules. As the NWU are in a process of restructuring at the time of the composition of this Yearbook, the Faculty Rules are yet to be approved by Senate and therefor the NWU Academic Rules will prevail up until such time when Faculty Rules are drafted, approved and incorporated in the Faculty Yearbook.

HUM.1.1.1 Admission requirements

Requirements for admission to the University are given in the NWU Academic Rules. Specific requirements are stated in the rules of the different qualifications, programmes and curricula offered in the Faculty of Arts.

HUM.1.1.2 GENERAL PROVISIONS

HUM.1.1.2.1 FACULTY RULES

1.3.3 Faculty rules may, where appropriate, provide for arrangements that may be necessary for the accommodation of programme-specific requirements and faculty-specific procedures and structures

1.3.3 The minimum and maximum duration of study for a qualification, the composition of the curricula of programmes, and the credit structure of programmes leading to a qualification, are set out in the faculty rules.

1.3.5 Where faculty rules are amended and approved by senate before the next version of the yearbook is published, reasonable steps must be taken to bring the amendments to the attention of students who are affected thereby

1.5 Application, selection and admission to the university

1.5.1 Application and admission

1.5.1.3 *Programme-specific additional admission requirements* may be provided for in faculty rules and no application for admission may be accepted unless the applicant complies with both the general admission requirements and faculty-specific requirements where applicable

1.5.2 Selection

1.5.2.1 The university reserves the right to set selection criteria, in addition to the minimum admission requirements, and apply such criteria to admit or refuse admission to specific qualifications and programmes, taking into consideration the university's targets for the size (total number of students) and shape (fields of study and diversity profile) of the student population, and

the capacity available to the university to offer the qualifications and programmes concerned.

1.5.2.2 The allocation of a number for identification purposes to an applicant who meets the minimum admission requirements does not constitute or create a right to be admitted to the university as a student.

1.6 Admission and advanced standing on grounds of recognition of prior learning

1.6.1 An executive dean may, by means of the recognition of prior learning (RPL) in accordance with the university's Recognition of Prior Learning Policy, grant a student who does not meet the minimum admission requirements admission to a programme of a qualification, or grant advanced standing to a student by exempting the student from the recognised modules required for the completion of a particular programme

1.2 Structure of a qualification

The senate may approve faculty rules that allow for a maximum additional credit allocation of 20% more than the minimum required total credits for a qualification specified in the HEQSF

1.7 Credit recognition and transfer

1.7.3 Application for credit recognition and transfer is made on existing NWU student request form that should be submitted to the specific subject group leader/programme leader/ on the relevant campus according to the prescribed date on the university calendar.

1.8 Linked and concurrent modules

1.8.3 Students who need to enrol for linked and/or concurrent modules should submit a formal application on the NWU student request form to the module subject chair and school director/ deputy school director on the relevant campus who will write a recommendation for consideration and approval by the executive dean according to the prescribed date on the university calendar.

1.10 Registration

1.10.1 Annual registration

1.10.1.1 Students take responsibility for registering according to the programme as stipulated in the Faculty yearbook.

Every returning student must register annually in their personal capacity, either by means of a paper-based or an electronic registration process, for the learning components that are prescribed for the specific study year, in accordance with the faculty rules applicable to the qualification, programme and module(s) concerned

1.10.1.4 Faculty rules provide for the requirements for active participation by students in specific programmes and students may not register for modules in which they are unable to or intend not to actively participate.

1.10.13 Active enrolment

1.10.3.1 A registered student must actively participate in the teaching, learning and assessment activities of every module for which such student is registered in order to be deemed to be an enrolled student for subsidy purposes.

1.10.4 Amendment, cancellation and discontinuation of registration

1.10.4.1 Subject to the applicable faculty rules and the applicable provisions regarding payable fees, a student may apply in the prescribed manner and within the period indicated for that purpose on the annual university calendar, to amend, cancel or discontinue registration.

1.10.5.3 The executive dean concerned may in writing, and with the concurrence of the other institution concerned, grant a student permission to take specific modules offered by another university, including exit modules required for the completion of a programme, modules that the student is not able to attend at the university, and modules that are not offered by the university, provided that such student continues to be registered as a student of the university

1.11 Protection of personal and education-related information

1.11.1 In the course of the registration process the extent to which the student's personal or education-related information may be disclosed to a third party is determined, but the student may withdraw or amend permission granted to disclose such information by means of a request in writing submitted to the registrar.

1.11.2 The university may disclose personal or education-related information regarding a student to a third party only after the law applicable to the protection of and access to information has duly been complied with.

1.12 Exemption from practical work or class attendance in a module

1.12.1 The granting of exemption in terms of rules 1.12.1 and 1.12.4 is subject to the applicable faculty rules and is valid only for the year following the year when the student failed the module.

1.12.2 If exemption from the practical component of a module is granted, the student must register for the module in the subsequent year and, in accordance with the applicable faculty rules, make the necessary arrangements with the lecturer concerned to have the mark that was achieved for the practical component of the module transferred to form part of the module participation mark

1.12.3 If exemption from class attendance is granted in respect of a module, the student must register for the module in the subsequent year and must comply with faculty rules regarding the other required formative assessment opportunities in order to compile a new participation mark in the module concerned.

1.13 Assessment

1.13.1 Determination of module mark

1.13.1.1 The module mark for all coursework modules is based on a combination of a module participation mark and an examination mark in the ratio determined in the applicable faculty rules except where the module mark is based on continuous assessment or where no participation mark is required.

1.13.2 Requirements for admission to the examination

1.13.2.1 Faculty rules may provide that no participation mark is required in a specific module, or that alternative proof of participation must be provided for admission to the examination.

1.13.3 Requirements for passing a module

1.13.3.1 The sub-minimum for examinations in all coursework modules is 40% except where a higher sub-minimum is set in the applicable faculty rules.

1.13.3.2 A student passes a coursework module if a final module mark of at least 50% is attained, taking into account the provisions of the faculty rules concerned regarding the examination sub-minimum and the ratio between the module participation and examination mark.

1.13.3.4In cases where a module is assessed on the basis of continuous assessment, the final module mark is based on the weight accorded to the various continuous assessment tasks as prescribed in the applicable faculty rules and a student must obtain a weighted average of at least 50% to pass the module

1.13.7 Access to and review of marked examination work

1.13.7.1 All students have the right to view their marked examination scripts and the associated memoranda in accordance with faculty rules.

1.13.7.4 Students who want to view their marked examination script and the relevant memorandum should apply in writing on the NWU student request form to the school director or deputy school director on the relevant campus within 7 days after results were published. If the request is approved, the subject chair and the relevant lecturer arrange a meeting with the student to view the examination script and the memorandum.

Faculty rules must provide procedures for, and the management of the manner in which students may be given access to their examination work and the submission of subsequent requests

1.15 Monitoring of academic performance

1.15.1 Subject to exceptions that may be provided for in faculty rules, a student is deemed not to have made satisfactory academic progress if, in a semester, the student achieves less than half the credits required for the programme concerned as prescribed in the faculty rules concerned for the mode of delivery (contact or distance) and attendance mode (full-time or part-time).

1.15.2 Subject to additional arrangements provided for in faculty rules, a student whose academic performance is unsatisfactory may be given a written warning by the executive dean concerned, alerting the student to the implications of unsatisfactory academic progress for the completion of the study programme, and providing a basis for the lecturer or programme leader

concerned to review the unsatisfactory progress with the student, and for referral for appropriate support, including academic advice, supplemental instruction and study counselling. Progress reports to be completed twice a year for the progress on the thesis/dissertation/mini-dissertation/research project (article format).

1.15.4 The supervisor or promoter of a postgraduate student must regularly, as required by the applicable faculty rules, *submit a report on the progress made by a student on the research component of the programme concerned, and if such progress proves to be unsatisfactory, the student must be given a written warning by the executive dean concerned.*

1.18 Termination of studies

1.18.4 A student whose studies have been terminated may, in accordance with the applicable faculty rules, *apply for admission to another study programme, but must in the course of the application mention the termination.*

2.1 Structure of undergraduate qualification

2.1.1 The Higher Certificate consists of a number of modules with a minimum total credit value of 120 at NQF level 5, *structured according to the provisions of Rule 1.2, and subject to specific faculty rules.*

2.1.2 The Advanced Certificate consists of a number of modules with a minimum total credit value of 120 at NQF level 6, *structured according to the provisions of Rule 1.2, and subject to specific faculty rules.*

2.1.3 In addition to other credits required in terms of rule 2.1.4, a minimum of 120 credits at NQF level 6, *structured according to the provisions of Rule 1.2 and subject to specific faculty rules,* is required for a diploma, and a diploma takes the form or

In addition to other credits required in terms of rule 2.1.4, a minimum of 120 credits at NQF level 6, *structured according to the provisions of Rule 1.2 and subject to specific faculty rules,* is required for a diploma, and a diploma takes the form of

2.1.3.1 A diploma with a minimum total credit value of 240 which leads to a professional designation or occupational role as determined by a professional body, and does not provide for work-integrated learning as part of the formal credits of the qualification structure, or

a diploma with a minimum total credit value of 360 requiring up to 120 credits of work-integrated learning as part of the qualification structure, though work-integrated learning is not a mandatory part of the curriculum.

2.1.4 The Advanced Diploma consists of a number of modules with a minimum total credit value of 120 at NQF level 7, *structured according to the provisions of Rule 1.2, and subject to specific faculty rules.*

2.1.5 The 360 credit Bachelor's Degree consists of a number of modules with a minimum total credit value of 360 credits with a minimum of 120 credits at NQF level 7, *structured according to the provisions of Rule 1.2, and subject to specific faculty rules*

2.1.6 The 480 credit Bachelor's Degree consists of a number of modules with a minimum total credit value of 480 with a minimum of 120 credits at NQF level 8, structured according to the provisions of Rule 1.2, and subject to specific faculty rules.

2.2 Credit recognition and transfer

2.2.1 A student who was registered for, but did not complete an undergraduate programme at the university or at any other recognised higher education institution, may apply for credit recognition and transfer for equivalent courses or modules which have been successfully completed on the applicable NWU student request form to the subject group leader or subject group co-ordinator for the relevant campus and module concerned. The relevant subject group leader or subject group co-ordinator discuss the application with the relevant school director or deputy school director on campus and the school director sends a recommendation to the executive dean for approval in consultation with the faculty manager.

2.2.1.1 Where the application is based on credits completed in an undergraduate programme at the university, the executive dean concerned may, on application by a student, recommended by the subject group leader or co-ordinator and the school or deputy director, after consultation with the faculty administrator, award any or all credits, including credits at the exit-level of the programme, as meeting part of the requirements for the qualification concerned, on condition that the outcomes of the modules are equivalent.

2.3 Additional modules

2.3.1 Subject to provisions in faculty rules, a student who registers for the first year level of an undergraduate programme may be allowed to register for one additional module per semester (either an elective from the same programme or a module from another programme), provided that no timetable clashes are brought about thereby. Distance students: After clarification with an advisor and in consultation with a subject lecturer / subject chairperson, a distance student may register and pay for an extra module. Clashes regarding whiteboard broadcasts are no problem because these broadcasts can be downloaded.

2.3.2 Subject to provisions in faculty rules, a student who registers for the second, third or fourth year level of an undergraduate programme, and who has already passed all the required preceding modules of the programme concerned, may be allowed to register for a maximum of two additional modules per semester or two additional year modules, or one semester and one year module, provided that the student has ascertained that no class or examination timetable clashes are brought about thereby, and subject to the maximum number of credits for which a student may register in a given academic year as provided for in rule 1

2.4 Registering for final year modules

2.4.1 Subject to exceptions made in terms of rule 2.4.2, a student may only register for final year modules of an undergraduate qualification if the student have passed all the first-year modules of the programme

2.4.2 Faculty rules may allow for exceptions to the requirements of rule 2.4.1 to be made by the executive dean concerned, taking into account the rules relating to the maximum duration of study provided for by rule 1.14

2.5 Assessment of undergraduate modules

Students who want to view their marked examination script and the relevant memorandum should apply in writing on the NWU student request form to the school director or deputy school director on the relevant campus within 7 days after results were published. If the request is approved, the subject chair and the relevant lecturer arrange a meeting with the student to view the examination script and the memorandum.

2.5.1 Examiners and moderators

2.5.1.3 A minimum of 30% of all exit level examination papers and memorandums (including documents like mini-dissertations where applicable), and examination scripts are externally moderated per semester. If the total number of enrolled students in the exit level module is less than 30 students, then all scripts must be moderated.

2.5.1.10 If required by statutory councils, professional bodies or faculty rules, external moderation may occur more regularly

2.5.3 Number of examination opportunities

2.5.3.2 Faculty rules may exclude specific modules from a second examination opportunity

2.5.3.3 Except if faculty rules provide otherwise, a student may write the examination during either the first or the second examination opportunity, provided that all the examination papers for a module must be written during the same examination opportunity.

2.6.1 Satisfaction of requirements: Taking into account rules 1.3.3, 1.14, 1.17 and 1.19.3, an undergraduate qualification is obtained when final verification and audit confirmation is given that a student has successfully completed all the modules prescribed in the applicable faculty rules for the programme of the qualification concerned.

2.6.2 Qualifications with distinctions

2.6.3.1 In order to be awarded a qualification with distinction a student must achieve a weighted average of at least 75% for all the core modules identified as such in the faculty rules concerned, not taking additional modules taken by the student into account

2.6.3.2 A full-time student enrolled in a contact programme must complete the programme within the minimum time specified in the faculty rules in order to qualify for the award of the qualification with distinction, except if failure to comply with the minimum time requirements is due to the interruption of the

study on medical grounds, in which case the executive dean concerned may approve the award of the degree with distinction.

2.6.2.3 A part-time student or a student enrolled in a distance programme must complete the programme within the maximum time specified in the faculty rules in order to qualify for the award of the qualification with distinction.

FACULTY RULES REGARDED PROBABLE BY THE NWU RULES AND MEASUREMENT OF CURRENT SET OF FACULTY RULES AGAINST THE STIPULATIONS

1.13 Assessment

1.13.2 Requirements for admission to the examination

1.13.2.3 In agreement with the General A-rule, modules for which no participation mark is required, are to be approved by the Faculty Board

2.4.1 In agreement with General A-rule, Subject to exceptions made in terms of rule 2.4.2, a student may only register for final year modules of an undergraduate qualification if the student have passed all the first-year modules of the programme

2.4.2 Students may apply to the executive dean on the NWU student request form to be exempted from faculty rule

2.4.3.2 Modules which are to be excluded from a second examination opportunity are to be approved by the Faculty Board.

HUM.1.1.3 Explanation of the presumed learning requirement in the list of modules

In the column "Prerequisites" of the list of modules the different abbreviations used mean the following:

- a) (35PM) or (40PM) that a participation mark of at least 35%/40% is required in order to register for the specific module for which it is set as a requirement;
- b) (40) that a module mark of at least 40% is required in order to register for the specific module for which it is set as a requirement;
- c) no mark given in brackets implies that a module mark of at least 50% is required in order to be able to register for the specific module for which it is set as a requirement.

HUM.1.1.4 The teaching of core modules

When the modules of a subject are presented as core modules at exit level, that is, when the subject is presented as major subject, the modules of the particular subject or the equivalents thereof must be successfully completed as follows:

HUM.1.1.5 Examination opportunities

The examination opportunities and their concomitant rules are determined according to the NWU Academic Rules

HUM.1.1.6 Computation of participation mark

The participation mark for a module is computed from the marks for tests, assignments and practical work.

The ratios between theory and practical work for calculating the participation mark for modules is done according to the exposition in the study guides for the various modules.

HUM.1.1.7 Admission to the examination

Admission to the examination in any module is gained by *earning proof of participation* (NWU Academic Rules 2).

Proof of participation which allows admission to the examination will only be given after a student has complied with the requirements set out in the study guide for the specific module to the satisfaction of the School Director in consultation with the Subject Group Chairperson.

The admission requirements for the examination in semester and year modules in the Faculty of Humanities are as follows:

Year level of the module	Semester	Required participation mark
1	1	35
1	2	40
2	1	40
2	2	40
3	1	40
3	2	40
4	1	40
4	2	40
All levels	Year modules	40

HUM.1.1.8 Passing requirements for a module and a programme

- d) The stipulations of NWU Academic Rules 3 and all the subparagraphs apply.
- e) The passing requirement for a module in which examinations were written, is a module mark of 50% (NWU Academic Rules 3.2.).

- f) The module mark is calculated according to the ratio between the participation mark and the examination mark as set out under the module outcomes at the end of the calendar.
- g) Consideration for adapting the module mark of a first semester module in which examination has been written but not passed, is done according to the stipulations of NWU Academic Rules 3.4.
- h) The subminimum for all modules in which examinations were written, is 40% (NWU Academic Rules 3.3.), except where a higher sub-minimum has been laid down by the rules of specific programmes and curricula.
- i) The NWU Academic Rules lay down the requirements for passing a module/programme/qualification with distinction.
- j) A subminimum of 40% is applicable to each exam paper in a module.
- k) Students must obtain the subminimum in each component of a module.
(Example: When a examination paper consists of three components, students must obtain the subminimum in all three components.)
- (i) In cases where the module exam consists of more than one paper, each paper needs to be written and passed in order to pass the relevant module as a whole.
- (j) In cases where a second-opportunity examination is allowed, and where the module consists of more than one paper, each paper needs to, again, be written and passed in order to pass the relevant module as a whole.

HUM.1.1.9 Registration for additional modules

- a) In any study year a student may take additional modules apart from the required modules of the specific programme, consistent with the stipulations in NWU A-rules.
- b) Except where specified differently for a programme, undergraduate students may, with written permission from the Dean, be allowed to take a maximum of one module of an honours degree as an additional subject provided the admission requirements for the specific module have been met.

HUM.1.2 ACADEMIC LITERACY

All undergraduate students who register at the North-West University for the first time are required to register for a module / modules in academic literacy. They have to pass this module / these modules before they can graduate.

a. Testing

Students have to write a compulsory proficiency test (TALL or TAG) in academic literacy, at a time and place determined by the University, to determine their ability to function within the academic environment. The purpose of this test is to identify students who, due to inadequate academic literacy skills, may not complete their study programme within the stipulated period in order to empower them with the necessary knowledge and skills.

Students have the option of writing the compulsory skills test in either English or Afrikaans. With the exception of students who are identified as borderline cases by the test, each student has only one opportunity to write the test. Students who are regarded as borderline cases, will be granted a second opportunity to write the test. It is the student's responsibility to check and verify his/her result within 14 days of writing the test and to register for the correct module in the correct semester (see below).

b. Module(s)

Academic Literacy Development (ALDE111) / Ontwikkeling van Akademiese Geletterdheid (ALDA111)

Students who are identified as at-risk by the test, must register for the module ALDE111 [English] or ALDA111 [Afrikaans], depending on the language in which the compulsory test was written.

i. Level and credits

This module is on NQF level 5 and worth 12 credits (additional credits).

ii. Composition of module and calculation of module marks

ALDE111 / ALDA111 comprises one component only, which includes two periods per week. Class attendance is compulsory. The module is only presented in Semester 1.

A system of continuous assessment is followed. The final module mark is calculated as follows: Exam mark = 40% and Participation mark = 60%. For admission to the exam in ALDE111 / ALDA111, a participation mark of 40% is required.

Note that for conditional admission to ALDE122 / ALDA122, a student who is required to follow ALDE111 / ALDA111 should obtain a module mark of 40% minimum for ALDE111 / ALDA111. Important: ALDE122 / ALDA122 must be completed in the same year in which the conditional admission is granted.

A final module mark of 50% is required to pass the module.

iii. Important additional information

Specific faculty rules in terms of termination of studies might apply if a student fails ALDE111 / ALDA111.

Students who have already successfully completed a module similar to ALDE111 / ALDA111 at another tertiary institution and can provide proof of this, may apply in writing on the prescribed form for formal recognition for the module. This application should be submitted to the subject chair responsible for Academic Literacy. Recognition is only granted in cases where the modules are on the same NQF level (NQF5), where the credit values are of the same value (12), and where content is comparable.

iv. Language and mode of delivery

ALDE111 is presented in English and ALDA111 in Afrikaans. The module is presented in both contact and open distance learning mode. Note that only students who are formally registered for open distance learning may follow the module in this mode. Moreover, open distance learning is presented in English only.

v. Outcomes

On completion of this module students should be able to:

- bridge the divide between secondary school and university education;
- access academic information effectively in order to understand academic texts;
- process academic information successfully; and
- produce academic information responsibly and appropriately.

Academic Literacy Development (ALDE122) / Ontwikkeling van Akademiese Geletterdheid (ALDA112 or ALDA 122)

All students, regardless of the result obtained for the compulsory proficiency test in academic literacy, must register for the module ALDE122 [English] / ALDA112 or ALDA122 [both in Afrikaans]. Students with Afrikaans as language of teaching and learning and who do not need to complete ALDA111, register for ALDA112 in Semester 1 (applicable to certain faculties of the Potchefstroom Campus only). Students who are required to enrol for ALDA111, register for ALDA122 in Semester 2. Note that ALDA112 and ALDA122 are exactly the same module presented in both semesters. The module codes, however, differ in order to distinguish between the semesters. Students with English as language of teaching and learning, register in all cases for ALDE122 in Semester 2.

i. Level and credits

This module is on NQF level 5 and worth 12 credits. Note that it is calculated in terms of programme credits. It thus carries a weight of 12 credits in the first-year programme.

ii. Composition of module and calculation of module marks

For admission to the module ALDE122 / ALDA122, a student must first pass ALDE111 / ALDA111. In all other cases students have immediate access to ALDE122 [Semester 2] / ALDA112 [Semester 1] or ALDA122 [Semester 2].

A final mark of at least 40% in ALDE111 / ALDA111 only grants students conditional entry to ALDE122 or ALDA122. Students who were allowed to continue with ALDE122 / ALDA122 and who passed the examination in this module, may have the result for

ALDE111 / ALDA111 condoned to a pass by the entity concerned with Academic Literacy.

The module ALDE122 / ALDA112 or ALDA122 comprises three compulsory components: an Academic Literacy component, a Computer and Information Literacy component and a Reading component. For the academic literacy component class attendance of two periods per week is compulsory. Computer and Information Literacy requires that students learn autonomously, but they will have access to contact sessions if they wish to make use of it. Students are also required to attend a number of sessions in the Reading laboratory as part of the reading component.. Depending on a student's reading speed and comprehension, he/she could be compelled to attend more sessions. A student must pass all three components to pass the module.

A system of continuous assessment is followed. The final module mark is calculated as follows: Exam mark = 40% and Participation mark = 60%. For admission to the exam in ALDE122 / ALDA112 or ALDA122, a participation mark of 40% is required.

The exam consists of two papers, viz. Academic Literacy and Computer and Information Literacy. The subminimum required to pass the Academic Literacy component, is 40%. The subminimum required to pass the Computer and Information Literacy component, is 50%. These components are dealt with in a ratio of 80:20 when calculating the final mark (80% for the academic literacy and 20% for the computer and information literacy component). For the Reading component, a code for sufficient or insufficient is issued.

A final module mark of 50% is required to pass the module.

iii. Important additional information

Specific faculty rules in terms of termination of studies might apply if a student fails ALDE122 / ALDA112 or 122.

Students who have already successfully completed a similar module to ALDE122 / ALDA112 or ALDA122 at another institution and can provide proof of this, may apply in writing on the prescribed form for formal recognition of the module. This application should be submitted to the subject chair responsible for Academic Literacy. Recognition is only granted in cases where the modules are on the same NQF level (NQF5), where the credit values are the same value (12), and where content is comparable.

iv. Language and mode of delivery

ALDE122 is presented in English and ALDA112 or ALDA122 in Afrikaans. The module is presented in both contact and open distance learning mode. Note that only students who are formally registered for open distance learning may follow the module in this mode. Moreover, open distance learning is presented in English only.

v. Outcomes

On completion of this module students should be able to:

- successfully become part of the academic learning community and participate in this community;
- access information in a responsible and ethical way in order to write an academic text;
- process information strategically in order to write an academic text;
- produce an academic text;
- read at an acceptable speed and on an acceptable level of understanding; and
- demonstrate a fundamental level of computer and information literacy.

HUM.1.3 TEACHER'S TRAINING

- a) Curricula complying with the required number of credits in recognised learning areas and/or school subjects give admission to the one year Postgraduate Certificate in Education (PGCE). This is an academic professional certificate directed at the training of teachers for the intermediary and/or senior and further education phase.
- b) Admission requirements for PGCE:
 - (i) A first university degree with two recognised school subjects, or a recognised qualification that totals 360 credits on the NQF level 6 and which includes at least two recognised learning areas and/or school subjects.
 - (ii) Students should also be able to enrol for two (2) subject didactic modules in order to obtain the qualification.
 - (iii) The compilation of the degree course could include one of the following:
 - A recognized school subject/learning area on level 3 + a recognized subject/learning area on level 1.
 - A recognized school subject/learning area on level 2 + a recognized subject/learning area on level 2 ;
 - A recognized school subject/learning area on level 2 + a recognized subject/learning area on level 1. In case of a language, it is recommended that the candidate should at least have completed level 2.
- c) If the student would have to choose between the subject didactics of two academic subjects already passed for a previous qualification, the student should enrol for the one in which he/she is best qualified.
- d) A student who has not yet qualified for a degree may, in certain circumstances, be allowed to enrol for the PGEC qualification and at the same time take the deficient course units necessary for a degree, together with his/her PGEC subjects. Permission for such a course would

first have to be obtained from the Faculty of Arts and then from the Faculty of Education.

Remark: Consult the Dean of the Faculty of Education Sciences for more information.

HUM.1.4 WARNING AGAINST PLAGIARISM

Assignments are individual tasks and not group activities (unless explicitly indicated as group activities). For further details see:

http://www.nwu.ac.za/content/policy_rules

HUM.1.5 CAPACITY STIPULATION

Please take cognizance of the fact that, owing to specific capacity constraints, the University reserves the right to select candidates for admission to certain fields of study. This means that prospective students who comply with the minimum requirements may not necessarily be admitted to the relevant courses.

HUM.1.6 RECOGNITION OF PRIOR LEARNING

The process for recognition of prior learning is described in NWU A-rules.

HUM.1.12 SPECIFIC ENTRANCE REQUIREMENTS APPLICABLE TO SUBJECTS AND MODULES

HUM.1.12.1 Afrikaans and Dutch

- Admission to Afrikaans: Language Without Borders (AFLL111) and Afrikaans and Dutch Language and Literary Studies (AFLL121), requires at least a level 4 for Afrikaans as home language, or a level 5 for Afrikaans as first additional language for grade 12.
- Teaching the elective modules AFNE211 and AFNE213 in a particular year, may be influenced by the number of students who register for the module as well as the research duties and sabbatical leave of the relevant lecturers. Students may be required to do additional work in Dutch for the approval of the subject group.
- Students who comply with the entrance requirements for AFLL111 and 121, but still experience communication problems, will be referred to the Chairperson for the Subject Group Afrikaans and Dutch.
- AFPR111 (practical module): It is strongly recommended that students with a matriculation result below 60% in Afrikaans as a second language (L2), or a result below 50% in Afrikaans as a first language (L1) should register for this module rather than AFLL111.
- Credits may not be obtained for both AFLL111 and AFPR111, and neither for AFLL121 and AFPR 121. A student may therefore NOT take both AFLL and AFPR if the credits for both will be counted towards the total credits for obtaining a qualification.

HUM.1.12.2 Creative Writing

- a) Admission to SKRK111 may require the submission of a creative piece of writing which will be screened by the chairperson of the subject group.
- b) Admission to SKRK211,221,311 and SKRK321 is subject to selection.
- c) In order to register for SKRK321, all the preceding modules must have been completed successfully.
- d) Due to staff capacity, Afrikaans is the primary target language of all modules in Creative Writing and students should be fluent in Afrikaans in order to register for these modules. Study guides for the first year level modules, however, will also be available in English.

HUM.1.12.3 Economics

Admission to Economics (ECON112,121) requires at least a level 3 (40%-49%) in Mathematics for Gr 12.

HUM.1.12.4 English

- a) ENLS111 (practical module): It is strongly recommended that students with a matriculation result below 60% in English as a second language (L2), or a result below 50% in English as a first language (L1) should register for this module.
- b) ENLL111 (academic module): It is strongly recommended that students with a matriculation result of 60% or more in English as a second language (L2), or a result of 50% or more in English as first language (L1) should register for this module.

HUM.1.12.5 French

- a) FREN111 and FREB11 are beginners courses. No prior knowledge of French is required to register for these modules, but students must have a matriculation exemption certificate.
- b) Students who passed matric French with a final mark of 65% or higher or have obtained a certificate equal to level A2 of the Common European Framework of Reference for Languages from an accredited language learning institution may not register for FREN111/121 or FREB111/121. They may register for FREN211/221. If this qualification has been obtained more than 2 years prior to registration for French, an admission test is required. The results of this test will determine whether a student will be allowed to register for FREN111/121 or FREN211/221. Allowances could be made under exceptional circumstances after having consulted with the subject head.
- c) Students with prior knowledge of French, but who do not have official proof of proficiency, will be required to partake in an admission test. The results of this test will determine which module the student will register for. Students who have already mastered the outcomes for FREN111/121 or FREN211/221, will not be allowed to register for these modules.

- d) The credits of the modules from which the student has been exempted, are not awarded.
- e) Students who have passed FREB111 and 121 will be allowed to continue with FREN211/221.
- f) Credits cannot be obtained for both FREN111 and FREB111 neither for both FREN121 and FREB121.

HUM.1.12.6 GERMan

- a) GERM111 and GERB111 are beginners courses. No prior knowledge of GERMan is required to register for these modules, but students must have a matriculation exemption certificate.
- b) Students who passed matric GERMan with a final mark of 65% or higher or have obtained a certificate equal to level A2 of the Common European Framework of Reference for Languages from an accredited language learning institution may not register for GERM111/121 or GERB111/121. They may register for GERM211/221. If this qualification has been obtained more than 2 years prior to registration for French, an admission test is required. The results of this test will determine whether a student will be allowed to register for GERM111/121 or GERB 111/121 or GERM211/221. Allowances could be made under exceptional circumstances after having consulted with the subject chairperson.
- c) Students with prior knowledge of GERMan, but who do not have official proof of proficiency, will be required to partake in an admission test. The results of this test will determine whether a student will be allowed to register for GERM111/121 or GERB111/121 or GERM211/221.
- d) The credits of the modules from which the student has been exempted, are not awarded.
- e) Students who have passed GERB111 and 121 will be allowed to continue with GERM211/221.
- f) Credits cannot be obtained for both GERM111 and GERB111 neither for both GERMN121 and GERB121.

HUM.1.12.7 Latin

Students who passed Latin in grade 12 may register for LATN211, but then only in the second study year.

HUM.1.12.8 Mathematics

- a) A student who wishes to follow any module in Mathematics, with the exception of Mathematical Techniques must have obtained a mark of at least 60% (level 5) in the grade 12 Mathematics exam or at least 70% (level 6) in another Mathematics exam considered by the Senate as equivalent to the above.
- b) **Comments:**
 - Students who do not meet these requirements, but who managed to obtain a Mathematics mark of at least 50% (level 4) or at least 60% (level 5) in another Mathematics exam considered by the Senate as equivalent to the above, are admitted to a refresher course in

Mathematics presented in January by the School of Computer, Statistical and Mathematical Sciences. If such students perform satisfactorily in the tests taken during this course, they may be considered for admission to Mathematical modules. Prospective students who do not meet the grade 12 requirement for enrolling for MTHS1111, and who have not attended the refresher course, can gain admission to MTHS111 in the second study year by passing the module Mathematical Techniques in the first study year, provided that persons seeking to follow this route to obtain admission to programmes that would otherwise have been inaccessible to them, should take into consideration that they may not be able to complete their studies in the minimum period.

- A student who wishes to take Mathematical Techniques has to comply with prerequisites of the program the student intends to study. If a student wishes to take Mathematical Techniques in order to qualify for Mathematics in the next year, or for non-degree purposes, the student, must have obtained a mark of at least 40% (level 3) in the grade 12 Mathematics exam, or at least 50% (level 4) in another Mathematics exam considered by the Senate as equivalent to the above.

HUM.1.12.9 Setswana

Students who passed a Sotho language like Tswana, Southern Sotho or Northern Sotho as home language in the grade 12 examination, or who have one of these languages as their mother tongue, may not register for the Third Language courses in Setswana (ATSN111, ATSN121).

HUM.1.12.10 Language Practice / Translation and Interpreting Studies

Language Practice (LPRA) modules are offered on all three campuses as part of the qualification BA Language and Literary Studies. As such the admission requirements listed for LPRA-modules apply to all three campuses

Please note: Language Practice and Translation and Interpreting Studies successfully aligned in 2015 – all subject-related modules are referred to as Language Practice (LPRA) modules; the term "Translation and Interpreting Studies" is still partially used on the Potchefstroom and Mafikeng Campuses .

- a) Students who major in Language Practice / Translation and Interpreting Studies at third-year level should preferably have a language as a second major up to third year, and should have at least one other language up to second year level. This does not apply to students enrolled for Language Practice and Communication, where Communication is already the second major up to third year level.
- b) For students on the Potchefstroom Campus:
 - It is strongly recommended that at least two languages are taken up to second year level with Translation and Interpreting Studies taken up to third year level.
 - Students have a choice in the second semester of the third year to become part of a practical interpreting internship on the Potchefstroom Campus. The interpreting internship is done with the NWU Language Directorate . Students who prefer to do a

practical translation internship will do so under the guardianship of the responsible lecturer.

- Students who plan to complete their internship in interpreting (LPRA323) are advised to participate in the activities of the NWU Language Directorate on the Potchefstroom campus during their second year.

c) For student on the Mafikeng Campus

- It is strongly recommended that at least two languages should be presented at second year level with Translation and Interpreting Studies at third year level.
- Students who plan to complete their internship in interpreting (LPRA323) are advised to participate in the activities of the Mmabatho Magistrate Court during their second year.
- Setswana and English are the primary target languages of the translation modules in Translation and Interpreting Studies and students should be fluent in both Setswana and English in order to register for these modules.
- Setswana and English are the primary target languages of the translation modules in Translation and Interpreting Studies and students should be fluent in both Setswana and English in order to register for these modules.

MAJORS:

1. ENGLISH
2. SETSWANA
3. AFRIKAANS
4. FRENCH

ELECTIVES

1. HISTORY
2. SOCIOLOGY
3. TRANSLATION AND INTERPRETING

Students must have two majors. Possible majors are:

- 1) English, Setswana (first language), Translation and Interpreting (EST)
- 2) English, Afrikaans, Translation and Interpreting (EAT)
- 3) English, French, Translation and Interpreting (EFT)
- 4) Afrikaans, French, Translation and Interpreting (AFT)
- 5) Setswana (first language), Afrikaans Translation and Interpreting (SAT)
- 6) French, Setswana (first language), Translation and Interpreting (FST)

***All programme with Afrikaans will be offered in 2018.**

- c) For admission to LPRA111 and LPRA122, an achievement of at least level 5 (60% - 69%) for the appropriate Home Language and the First Additional Language is required.
- d) For admission to LPRA221, a minimum of 36 credits from language modules in the first three semesters is required.
- e) For admission to LPRA222 a minimum of 36 credits from language subjects is required.

- f) According to the Institutional Language Policy of the NWU, Setswana, English and Afrikaans are employed as official languages of the NWU. With the addition of Sesotho, these languages represent regional languages used at the three campuses of the NWU. These languages will form the core of the practical work conducted in language practice (LPRA) modules. However, students must be aware that, in terms of the language combinations accommodated for practical work (henceforth "working languages") in the LPRA modules as offered on the respective campuses, the following conditions apply:
- depending on the capacity of the campus, not all NWU official/regional languages may be included/accommodated as working languages within the LPRA modules.
 - depending on the capacity of the campus, languages other than the NWU official/regional languages may be included/accommodated as working languages within the LPRA modules.

Communication

Selection for the curriculum in Communication will, in addition to the specific entrance requirements for the BA Communication, also be determined by the number of places available.

HUM.2 RULES FOR THE DEGREE BACHELOR OF ARTS IN HUMANITIES

This programme is offered only full-time.

HUM.2.1.1 Admission requirements for the qualification

In addition to the general entrance requirements as specified in Academic Rule 1.5.a student must have an APS of at least 24.

HUM.2.1.2 Programme outcomes:

On completion of this programme, students should have acquired sufficient knowledge, skills and values to understand not only the demands of the specific occupation they wish to enter, but also those of the broader society within which they will function. Students should be able to understand key concepts, apply and extrapolate them within the field of the humanities and to master and apply the academic conventions valid within the humanities. The nature of the material and the methodology of the programme are particularly suitable for establishing a foundation for lifelong learning.

Comments:

The general aim of the qualification is to combine humanities in the faculty with themselves and some historically significant subjects in the qualification. Humanities are defined according to the internationally accepted distinction between the "speculative" or argumentative nature of the humanities and the more quantitative and qualitative nature of social sciences, natural sciences etc. The identified humanities in the faculty for this qualification are: Philosophy or Ethics, History or History of Art or Languages.

All programmes in the qualification will consist of 376 credits.

Philosophy modules on the first and second level are acknowledged in the place of the senate demanded Understanding the World modules. Philosophy one and two modules are thus compulsory for all BA Humanities programmes.

It is allowed by the government that the BA Humanities qualification can be delivered on VC and PC. An application to deliver also at MC will be made for 2019.

The programmes will be presented on the campuses according to the capacity and offering valid for a specific campus. E.g. Ethics and History of Art will be offered only on PC. If need be, separate programmes can be created to make this distinction.

AFPR111 (practical module): It is strongly recommended that students with a matriculation result below 60% in Afrikaans as a second language (L2), or a result below 50% in Afrikaans as a first language (L1) should register for this module rather than AFLL111.

Credits may not be obtained for both AFLL111 and AFPR111, and neither for AFLL121 and AFPR 121. A student may therefore NOT take both AFLL and AFPR if the credits for both will be counted towards the total credits for obtaining a qualification.

***Mathematics as elective module:**

A student who wishes to follow any module in Mathematics, with the exception of Mathematical Techniques (WISN112, WISN113 or MTHS123), must have obtained a mark of at least 60% (level 5) in the grade 12 Mathematics exam or at least 70% (level 6) in another Mathematics exam considered by the Senate as equivalent to the above. Students who do not meet these requirements, but who managed to obtain a Mathematics mark of at least 50% (level 4) or at least 60% (level 5) in another Mathematics exam considered by the Senate as equivalent to the above, are admitted to a refresher course in Mathematics presented in January by the School of Computer, Statistical and Mathematical Sciences. If such students

perform satisfactorily in the tests taken during this course, they may be considered for admission to Mathematical modules. Prospective students who do not meet the grade 12 requirement for enrolling for MTHS111, and who have not attended the refresher course, can gain admission to MTHS111 in the second study year by passing the module Mathematical Techniques (WISN112, WISN113 or MTHS123) in the first study year, provided that persons seeking to follow this route to obtain admission to programmes that would otherwise have been inaccessible to them, should take into consideration that they may not be able to complete their studies in the minimum period.

****Additional modules**

If the student wants to take additional modules, marks have to be good enough, and in addition, permissions have to be obtained from the faculty officer and the relevant subject chairs. These modules will also be charged for over and above the set fees for the degree.

ARTICULATION

Postgraduate Studies

Post-graduate Certificate in Education (PGCE)

This programme allows students to plan for a PGCE and a career in teaching as a main career path or a backup career. To gain admission to the PGCE, students must have an undergraduate university degree with two recognised school subjects, such as History, Mathematics, Languages, Sociology, Psychology (the two school subjects allow the student to select two methodologies of teaching in the PGCE). The recognised school subjects have to be combined as follows: one recognised school subject at level 3 + one recognised school subject at level 1 **(with the exception of languages and mathematics)**.

A student who wants to take the **Methodology of Life Orientation** must have two of the following subjects on degree level: Sociology, Psychology, Political Studies, Human Movement Science, Labour -and Industrial studies, Human Rights and Ethics and Nutrition. The student must already have a second school subject on degree level for the second methodology.

A student who wants to take the **Methodology of Languages** must have **completed it on level 3**. In this programme, languages will have to be taken additionally **up to third year level to qualify as first or second school subject**.

A student who wants to take the **Methodology of Mathematics** must have completed Mathematics **on level 2** or otherwise Mathematics on **level 1 with one of the following on level 2**: Statistics, Mathematical Statistics, Applied Mathematics and Financial Mathematics. Statistics offered in this programme qualify as statistics modules for the PGCE.

Honours in Sociology

Specific admission requirements of the Honours programme: In addition to General Rule A.3.2, the following rules apply: a) Applications for the Honours degree closes by end September. b) A B-degree is required, for which all the modules in Sociology were passed during the respective undergraduate levels. c) The modules of the final undergraduate year must have been completed with an average of at least 65%.

Honours in Psychology

A MINIMUM average of 65% in Year 3 psychology modules, as well as passing in a selection process, are required for admission.

Statistics is a requirement in Hons with Sociology or Hons Psychology and may be completed in the undergraduate years. If students do not wish to continue with an Honours degree, the above requirements for statistics modules do not apply and other module choices may be made. Students may also apply to take additional modules, if their marks permit this.

Career in business or human resource management

Selecting a language at first year level and IOPS and LLAW at second year level are recommended.

Career in the public sector

It is recommended to select PADM as elective and support with it with any of languages, statistics and history.

HUM.4.6 PROGRAMME: PSYCHOLOGY AND SOCIOLOGY - 100 143 L302V: PHASING OUT FROM 2018

HUM.4.6.1.1 Programme outcomes

On completion of this programme students should:

- possess knowledge, skills and values by means of which they will develop a sense of the demands of the particular occupations they wish to enter, as well as of the broader society in which they function;
- be able to perform functions and apply skills by means of which psychological phenomena in the workplace can be investigated and managed;
- possess knowledge, skills and values through which they develop an understanding of the broader community, its underlying philosophy, psycho-social functioning and other related matters that make it a dynamic environment;
- be committed to a process of life-long learning.

HUM.5.3 PROGRAMME: TOURISM MANAGEMENT 100 142 – L302M (PHASING OUT)

No students are accepted into either the first or the second year of this programme in 2019

The programme is offered only full-time.

HUM.5.3.1 Duration (minimum and maximum duration)

The degree of Bachelor of Arts in Tourism Management has a minimum requirement of six semesters for full time study and ten semesters for part time study

HUM.5.3.2 Admission requirements for the programme

A further Education and Training Certificate or University Entrance Equivalent (e.g. O and A Levels)

HUM.5.3.3 Programme outcomes

Students are expected to be competent in the following key areas:

- Collecting, analysing, synthesising and critically evaluating information pertaining to sustainable living patterns, environmental responsibility and conservation within the tourism industry;
- Providing benefits to society and the economy through increasing self-employment, the ability to sustain micro-enterprises and the overall social and economic productivity;
- Working effectively with others by sensitising target groups such as young people, the unemployed and community members to the need for improved community living in terms of raising standards and addressing issues of redress and democratisation.
- Demonstrating adequate knowledge and critical understanding of cultural and aesthetic sensitivity across a variety of social contexts, the need to be responsible citizens (locally, nationally and globally), and an understanding of the world as a collection of related systems and a much wider context for solving a wide range of problems.

HUM.5.6 PROGRAMME: SOCIOLOGY AND LABOUR RELATIONS MANAGEMENT 1GB H07 - L301P (PHASING IN FROM 2018)

The programme for this programme is offered only full-time.

HUM.5.6.1 Admission requirements for the programme

In addition to the general entrance requirements as specified in General Rule A.2.2.a student must have an APS of at least 22.

HUM.5.6.2 Programme outcomes

On completion of this programme, students should be able to understand the relationship between Sociology and Labour relations management and will be able to apply analytic skills from these disciplines in careers that require engagement with social and work-related questions.

HUM.5.6.3 Faculty-specific rules for the programme

Students considering doing **Honours in Sociology**, must have completed all the undergraduate modules in Sociology. The modules of the final undergraduate year must have been completed with an average of at least 65%.

Students considering doing **Honours in Labour Relations** must have completed the IOPS 311 and IOPS321 modules before applying. These modules can be taken additionally in the third year of the student's studies, for non-degree purposes. Students must make sure that they completed STTN111 (or STTN122) and STTN124. A minimum of 60% must have been obtained for LARM311, LARM321, LARM 322 and IOPS 321. Applicants are subjected to a selection process.

HUM.5.7 PROGRAMME: SOCIOLOGY AND GEOGRAPHY 1GB H05 – L301P (PHASING IN FROM 2018)

The programme for this programme is offered only full-time. **Motivation for the programme**

Studying environmental issues from a sociological perspective means exploring the social dynamics that shape our interactions with the physical environment, studying the manner in which social actions produce and reproduce the quality of the physical environment. In turn, the influence of a physical environment on the social environment, social behaviour, community health, development and wellbeing is studied. It is, therefore, critical to have a sound grasp of geographical and environmental issues. Environmental issues are narrowly linked with social problems and social justice, as vulnerable groups are disproportionately affected by problems such as access to clean air, water, food, as well as more exposed to the problems created, for example, by climate change, environmental politics and access to support for the problems created by toxic environments. Social scientists find it difficult, to study social problems that have their roots in natural and environmental sciences, without a better grasp of core geographical and environmental theories and issues.

HUM.5.7.1 Admission requirements for the programme

In addition to the general entrance requirements as specified in General Rule A.2.2.a student must have an APS of at least 22.

HUM.5.7.2 Programme outcomes

On completion of this program, students will have some understanding of the nature of society, how it functions and interacts with the environment. They may be able to apply this knowledge in careers that require analytical thought processes and competence to deal with the reciprocal influence of society and the environment, the opportunities and challenges created in this regard, as well as possible interventions.

Postgraduate studies in Environmental Sociology and Environmental Management may lead to a career in environmental management, environmental impact assessment, social impact assessment and public-sector work in shaping policy formulation that supports sustainable development.

HUM.5.7.3 Faculty-specific rules for the programme

*IOPS111, IOPS212 and STTK214 or STTN124 become elective modules for students who do not plan postgraduate studies in BA Honours in Sociology with Environmental Sociology or BA Hons in Geography. It is not a requirement for students who consider BA Honours in Sociology for postgraduate studies. STTK214 is taken in the first semester of the BA Honours in Sociology and does not have to be taken on an undergraduate level. Students must pass STTK214 or STTN124 in/before their third year of study for BA Honours in Sociology with Environmental Sociology or BA Hons in Geography.

If a student previously chose IOPS111/ IOPS 211 or SBSS121 (and not STTK214 or STTN124) irrespective whether the student passed or failed IOPS111/ IOPS 211 or SBSS121, STTK214/ STTN124 still remains compulsory in / before the third year of study for BA Honours in Sociology with Environmental Sociology or BA Hons in Geography.

HUM.5.7.4 Post Graduate Studies

If successful, students may be eligible for admission to an Honours degree.

BA Hons Sociology with Environmental Sociology

Specific admission requirements of the Honours programme: In addition to General Rule A.3.2, the following rules apply: a) Applications for the Honours degree closes by end September. b) A B-degree is required, for which all the modules in Sociology were passed during the respective undergraduate levels. c) The modules of the final undergraduate year must have been completed with an average of at least 65%. d) STTK214 should be completed before entry to the Honours programme.

BA Hons Sociology

Specific admission requirements of the Honours programme: In addition to General Rule A.3.2, the following rules apply: a) Applications for the Honours degree closes by end September. b) A B-degree is required, for which all the modules in Sociology were passed during the respective undergraduate levels. c) The modules of the final undergraduate year must have been completed with an average of at least 65%.

BA Hons Geography

Students may be admitted to the Honours qualification in Geography given that they are in possession of a B degree with Geography passed at NQF level 7 with at least 60%. Selection is furthermore based on students' academic record and other proven appropriate prior learning, but both students' backgrounds and potential are taken into account.

If a student wants to register for ECON122 in the second semester, the student must register for ECON112 in the first semester, as ECON112 is a prerequisite to ECON122.

If a student registers for SOCY111 in the first semester, the student must register for PSYC121 in the second semester, since ECON112 which was not registered for in the first semester, is a prerequisite to ECON122, and the student can thus not register for ECON122 in the second semester.

HUM.6.7 PROGRAMME L310P: MUNICIPAL MANAGEMENT AND LEADERSHIP (PHASING OUT FROM 2018)

Programme L310P is offered part-time only.

HUM.6.7.1 Specific admission requirements for the programme

In addition to the general entrance requirements as specified in General Rule A2.2 a student:

- must have an APS of at least 20;
- must have a minimum of two years working experience within the public sector, preferably the local sphere of government .

HUM.6.7.2 Evaluation of Academic Literacy

- In order to evaluate their ability to function in an academic environment, all undergraduate students who register at the University for the first time must report for a compulsory skills test in academic literacy, at a time and place determined by the University. The purpose of this test is to identify students who, due to inadequate academic skills, may fail to complete their study programme within the stipulated period.
- Students have the option of writing the compulsory skills test in English or in Afrikaans. With the exception of students who are identified as borderline cases by the test, each student has only one opportunity to write the test. Students who are regarded as borderline cases, will be granted a second opportunity to write the test. It is the responsibility of

the student to establish his/her result within 14 days of writing the test and to register for the correct module and in the correct semester.

- c) Students who are regarded as at-risk cases must register for the module ALDE/A111. This module is not calculated in terms of programme credits, but the credits earned in this way are regarded as additional credits.
- d) Admission to the examination for ALDE/A111 requires a participation mark of 35%. Students who are not admitted to the examination for ALDE/A111 or who fail the relevant examination as well as two or more other modules, will have to be re-evaluated by the Evaluation Committee if they want to continue their studies in the following semester. In order to avoid the termination of studies, ALDE/A111 must be completed at the end of the student's second historic year ALDE/A111, at the very latest.
- e) Admission to the module ALDE/A122, which is compulsory for all students who register at the University for the first time, requires that a student should first complete ALDE/A112 and must obtain a mark of at least 40% for this module. The module ALDE/A122 constitutes a value of 12 credits that form part of the programme for which the student has registered.
- f) ALDE consists of three papers, viz. Academic Literacy, Computer and Information Skills and Reading Skills. There is a subminimum in each of the three components. The student must pass each of the three components in the same semester in which he/she has registered for the module in order to pass the module.
- g) Students who failed the module ALDE/A111, but were allowed to continue with ALDE/A122 and who passed the examination in this module may have the result of ALDE/A111 condoned by the relevant School Director to allow for a pass mark in the module.
- h) Students who have already successfully completed a module[s]/course[s] equivalent to ALDE/A111 & ALDE/A122 at another institution, and can provide proof of this qualification, may apply in writing to the Head of the Centre for Academic and Professional Language Practice for formal recognition.
- i) There is a subminimum in each of the three components of ALDE/A122. Students have to pass all three components in order to have completed the module successfully.

HUM.6.7.3 Programme outcomes

On completion of this programme, students should demonstrate:

- a) integrated knowledge and understanding of the context and dynamics of developmental local governance in South Africa;
- b) knowledge and comprehension of the basic political government structures within a democratic establishment and connect them with society which is influenced by these structures;
- c) understanding of the underlying legislative aspects (legislation) which underwrite the political process, governing function and which offer functional frameworks to public managers within the South African government structures;
- d) competency to justify ethically appropriate actions and decisions within the context of a municipal service ethos;
- e) the ability to contribute towards the enhancement of local government professionalism and capacity building;

- f) acquired advanced competencies in different areas of Municipal Governance to improve the quality of local government services delivery;
- g) skills to function as a public governor in order to implement government policy in a meaningful and effective manner;

HUM.7 RULES FOR THE DEGREE BACHELOR OF ARTS IN PUBLIC GOVERNANCE (PHASE OUT FROM 2018)

HUM.7.1.1 Admission requirements for the qualification

In addition to the general entrance requirements as specified in General Rule A.2.2, a student must have an APS of at least 25.

HUM.7.2 PROGRAMME 1DU H01 - L301P: POLICING PRACTICE (PHASING OUT FROM 2018)

HUM.7.2.1 Admission requirements for the programme

OPEN DISTANCE LEARNING

Open distance learning is an approach which combines the principles of learner-centeredness, lifelong learning, flexibility provision, the removal of barriers to learning, accessibility to learning, the recognition of prior learning, the provision of learner support, the construction of learning programmes in the expectation that learners can succeed, e-learning and the maintenance of rigorous quality assurance.

The Unit for Open Distance Learning (UODL) at the Potchefstroom Campus presents several distance programmes on behalf of the faculties at a number of open learning centres in Southern Africa. Distance learning programmes are offered on the following principles:

- Students can register any time of the year.
- Each programme has a minimum and maximum duration to complete.
- Students have a number of assessment opportunities (examinations) during a study period and all modules can be written at each assessment opportunity.
- Students do not have a second examination opportunity directly after the first attempt. If they fail the first attempt (e.g. June), they can write the failed module during the next examination opportunity (e.g. November). A valid participation mark will give the student access to two examination opportunities, where after a student must generate a new participation mark.
- Contact classes are mainly presented by means of interactive white board sessions, supported by facilitators. Lectures can also be followed on a personal computer if students have access to the Internet. All modules presented by means of interactive white board sessions are stored on the Internet for students to access at a later stage.
- Students are supported by means of a Call Centre, social media (Facebook) and contact with lecturers and facilitators.
- Examinations are written at several examination centres throughout Southern Africa, but the NWU can request students to write a specific module (e.g. Computer Science) at the Potchefstroom Campus.

HUM.7.2.1.1 Faculty-specific requirements

In addition to the general entrance requirements as specified in General Rule A.2.2, a student must have an APS of at least 20 for students who matriculated after 2008 and a M-Score of at least 13 for learners matriculated before 2008.

A valid matric (Grade 12) certificate with University exemption is also a requirement.

Applicant must have passed the language of tuition (English) with the minimum symbol of:

- a) "D" (50% - 59%) if the Grade 12 was obtained after 2008 (National Senior Certificate)
- b) "E" (40% to 49%) Higher Grade (HG) if the matric was obtained before 2008 (Senior Certificate)
- c) In cases of a matric certificate obtained before 2008, no endorsement of university exemption might appear on the certificate due to subjects chosen by the student. In those cases an **"Aggregate"** is provided which is a summary of the symbols the candidate achieved holistically. The following aggregates apply:
 - a. Aggregate with a "M" Symbol means matric with university exemption
 - b. Aggregate with a "S" Symbol means matric without university exemption.

Mature age conditional exemption:

"An applicant may qualify for mature age conditional exemption by virtue of being over the age of 23 years. However, to qualify for exemption on the basis of being over the age of 23 years, an applicant must be in possession of a National Senior or Senior Certificate and must have passed four matric subjects, including one of the official languages - one of which must be a higher grade (HG) subject" (Senior Certificate).

Applicants over the age of 45 don't need university exemption to register at NWU, but the applicant needs to apply to Universities South Africa (previously known as HESA) for university exemption before registration will be accepted and processed at the NWU. The APS-Score or M-Score and minimum language of tuition requirements explained also applies during these applications.

Exemption on grounds of post-school qualifications

"An applicant without matriculation exemption, but in possession of a valid National Senior Certificate or Senior Certificate, as well as a recognised three year diploma issued by a South African University, College of Education or Technikon, accredited by CHE and SAQA may qualify for total exemption on grounds of post-matric qualifications obtained. This exemption should, however, be awarded after faculty specific requirements are considered".

HUM.7.2.1.2 Registration

In terms of the ODL principle, students are permitted to register for the qualification at any stage during the academic year.

HUM.7.2.1.3 Examination opportunities

Open Distance Learning students are awarded two opportunities during an academic year to write their examinations, namely June and November. In accordance with the ODL policy, students are not awarded a second opportunity to sit for a supplementary examination directly after the main examination. Students who failed the main examination will be awarded a second opportunity during the next main examination period. If the student, for example failed his or her examination during the June examinations will be awarded an opportunity to sit for the next examination scheduled for November the same academic year.

If the student failed the June examination and would like to utilise the November opportunity, they retain their attendance mark and they also don't have to re-register for the second semester, nor to re-submit an assignment during that second semester.

HUM.7.2.1.4 Calculation of attendance mark

The level of participation of the student during the semester is determined by means of formative assessment, submitting an assignment or two. This assignment should be submitted to the University for evaluation and assessment purposes. If the student successfully passes the assignment, an attendance mark is awarded. This assignment not only awards an attendance mark to the student, but it also contributes 50% towards the students final semester mark. This requirement is explained fully in the study material and it remains the responsibility of the student to acquaint him or herself with the contents thereof.

HUM.7.2.1.5 Requirements to pass a module

- a) The pass requirement with regard to the formative assessment (assignment) during the semester is 40%.
- b) The pass requirement with regard to the semester summative assessment or the written examination is also 40%.
- c) The pass requirement with regard to the overall module and final semester mark is 50%.

HUM.7.2.1.6 Programme Outcomes

On completion of this programme, students should be able to:

- a) Strategically lead and manage human, financial, physical and information resources through effective organisational relations and practices to achieve strategic goals.
- b) Manage crime prevention by utilising specialised management skills in order to function strategically and effectively within a range of situations such as security and protection interventions as well as crowd control and management interventions.
- c) Manage crime detection by utilising specialised management skills in order to function strategically and effectively within a range of situations.
- d) Manage Community Service Centres (CSC) by utilising specialised management skills in order to function strategically and effectively within a range of situations.
- e) Manage the provision of protection, security and crime intelligence services for a safe and secure environment within the Republic of South Africa.

- f) Manage internal quality management systems to enable the organisation to reflect on whether organisational needs have been met.

HUM.8.7 PROGRAMME: 1GE H03 – L301P MUNICIPAL MANAGEMENT AND LEADERSHIP (PHASING IN FROM 2018)

Programme is offered with limited contact.

HUM.8.7.1 Admission requirement for the programme

In addition to the general entrance requirements as specified in General Rule A2.2 a student:

- must have an APS of at least 25;
- must have a minimum of two years working experience within the public sector, preferably the local sphere of government.

HUM.8.7.1.1 ACADEMIC LITERACY

All undergraduate students who register at the North-West University for the first time are required to register for a module / modules in academic literacy. They have to pass this module / these modules before they can graduate.

a. Testing

Students have to write a compulsory proficiency test (TALL or TAG) in academic literacy, at a time and place determined by the University, to determine their ability to function within the academic environment. The purpose of this test is to identify students who, due to inadequate academic literacy skills, may not complete their study programme within the stipulated period in order to empower them with the necessary knowledge and skills.

Students have the option of writing the compulsory skills test in either English or Afrikaans. With the exception of students who are identified as borderline cases by the test, each student has only one opportunity to write the test. Students who are regarded as borderline cases, will be granted a second opportunity to write the test. It is the student's responsibility to check and verify his/her result within 14 days of writing the test and to register for the correct module in the correct semester (see below).

b. Module(s)

Academic Literacy Development (ALDE111) / Ontwikkeling van Akademiese Geletterdheid (ALDA111)

Students who are identified as at-risk by the test, must register for the module ALDE111 [English] or ALDA111 [Afrikaans], depending on the language in which the compulsory test was written.

i. Level and credits

This module is on NQF level 5 and worth 12 credits (additional credits).

ii. Composition of module and calculation of module marks

ALDE111 / ALDA111 comprises one component only, which includes two periods per week. Class attendance is compulsory. The module is only presented in Semester 1.

A system of continuous assessment is followed. The final module mark is calculated as follows: Exam mark = 40% and Participation mark = 60%. For admission to the exam in ALDE111 / ALDA111, a participation mark of 40% is required.

Note that for conditional admission to ALDE122 / ALDA122, a student who is required to follow ALDE111 / ALDA111 should obtain a module mark of 40% minimum for ALDE111 / ALDA111.

A final module mark of 50% is required to pass the module.

iii. Important additional information

Specific faculty rules in terms of termination of studies might apply if a student fails ALDE111 / ALDA111.

Students who have already successfully completed a module similar to ALDE111 / ALDA111 at another tertiary institution and can provide proof of this, may apply in writing on the prescribed form for formal recognition for the module. This application should be submitted to the subject chair responsible for Academic Literacy. Recognition is only granted in cases where the modules are on the same NQF level (NQF5), where the credit values are of the same value (12), and where content is comparable.

iv. Language and mode of delivery

ALDE111 is presented in English and ALDA111 in Afrikaans. The module is presented in both contact and open distance learning mode. Note that only students who are formally registered for open distance learning may follow the module in this mode. Moreover, open distance learning is presented in English only.

v. Outcomes

On completion of this module students should be able to:

- bridge the divide between secondary school and university education;
- access academic information effectively in order to understand academic texts;
- process academic information successfully; and
- produce academic information responsibly and appropriately.

Academic Literacy Development (ALDE122) / Ontwikkeling van Akademiese Geletterdheid (ALDA112 or 122)

All students, regardless of the result obtained for the compulsory proficiency test in academic literacy, must register for the module ALDE122 [English] / ALDA112 or ALDA122 [both in Afrikaans]. Students with Afrikaans as language of teaching and learning and who do not need to complete ALDA111, register for ALDA112 in Semester 1 (applicable to Potchefstroom Campus only). Students who are required to enrol for ALDA111, register for ALDA122 in Semester 2. Note that ALDA112 and ALDA122 are exactly the same module presented in both semesters. The module codes, however, differ in order to distinguish between the semesters. Students with English as language of teaching and learning, register in all cases for ALDE122 in Semester 2.

i. Level and credits

This module is on NQF level 5 and worth 12 credits. Note that it is calculated in terms of programme credits. It thus carries a weight of 12 credits in the first-year programme.

ii. Composition of module and calculation of module marks

For admission to the module ALDE122 / ALDA122, a student must first pass ALDE111 / ALDA111. In all other cases students have immediate access to ALDE122 [Semester 2] / ALDA112 [Semester 1] or ALDA122 [Semester 2].

A final mark of at least 40% in ALDE111 / ALDA111 only grants students conditional entry to ALDE122 or ALDA122. Students who were allowed to continue with ALDE122 / ALDA122 and who passed the examination in this module, may have the result for ALDE111 / ALDA111 condoned to a pass by the entity concerned with Academic Literacy.

The module ALDE122 / ALDA112 or ALDA122 comprises three compulsory components: an Academic Literacy component, a Computer and Information Literacy component and a Reading component. For the academic literacy component class attendance of two periods per week is compulsory. Computer and Information Literacy requires that students learn autonomously, but they will have access to contact sessions if they wish to make use of it. Students are also required to attend a number of sessions in the Reading laboratory. Depending on a student's reading speed and comprehension, he/she could be compelled to attend more sessions. A student must pass all three components to pass the module.

A system of continuous assessment is followed. The final module mark is calculated as follows: Exam mark = 40% and Participation mark = 60%. For admission to the exam in ALDE122 / ALDA112 / ALDA122, a participation mark of 40% is required.

The exam consists of two papers, viz. Academic Literacy and Computer and Information Literacy. The subminimum required to pass the Academic Literacy component, is 40%. The subminimum required to pass the Computer and Information Literacy component, is 50%. These components are dealt with in a ratio of 80:20 when calculating the final mark (80% for the academic literacy and 20% for the computer and information literacy component). For the Reading component, a code for sufficient or insufficient is issued.

A final module mark of 50% is required to pass the module.

iii. Important additional information

Specific faculty rules in terms of termination of studies might apply if a student fails ALDE122 / ALDA112 / 122.

Students who have already successfully completed a similar module to ALDE122 / ALDA112 or ALDA122 at another institution and can provide proof of this, may apply in writing on the prescribed form for formal recognition of the module. This application should be submitted to the subject chair responsible for Academic Literacy. Recognition is only granted in cases where the modules are on the same NQF level (NQF5), where the credit values are the same value (12), and where content is comparable.

iv. Language and mode of delivery

ALDE122 is presented in English and ALDA112 or ALDA122 in Afrikaans. The module is presented in both contact and open distance learning mode. Note that only students who are formally registered for open distance learning may follow the module in this mode. Moreover, open distance learning is presented in English only.

v. Outcomes

On completion of this module students should be able to:

- successfully become part of the academic learning community and participate in this community;
- access information in a responsible and ethical way in order to write an academic text;
- process information strategically in order to write an academic text;
- produce an academic text;
- read at an acceptable speed and on an acceptable level of understanding; and
- demonstrate a fundamental level of computer and information literacy.

HUM.8.7.1.2 Programme outcomes

On completion of this programme, students should demonstrate:

- integrated knowledge and understanding of the context and dynamics of developmental local governance in South Africa;
- knowledge and comprehension of the basic political government structures within a democratic establishment and connect them with society which is influenced by these structures;
- understanding of the underlying legislative aspects (legislation) which underwrite the political process, governing function and which offer functional frameworks to public managers within the South African government structures;
- competency to justify ethically appropriate actions and decisions within the context of a municipal service ethos;
- the ability to contribute towards the enhancement of local government professionalism and capacity building;
- acquired advanced competencies in different areas of Municipal Governance to improve the quality of local government services delivery;
- skills to function as a public governor in order to implement government policy in a meaningful and effective manner.

HUM.8.8 PROGRAMME: 1DU H01 – L302P POLICING PRACTICE (PHASING IN FROM 2018)

Programme is offered with limited contact.

The programme is offered via Open Distance Learning mode of tuition only. It is also offered in English only.

HUM.8.8.1 Open Distance Learning

Open distance learning is an approach which combines the principles of learner-centeredness, lifelong learning, flexibility provision, the removal of barriers to learning, accessibility to learning, the recognition of prior learning, the provision of learner support, the construction of learning programmes in the expectation that learners can succeed, e-learning and the maintenance of rigorous quality assurance.

The Unit for Open Distance Learning at the Potchefstroom Campus presents several distance programmes on behalf of the faculties at a number of open learning centres in Southern Africa. Distance learning programmes are offered on the following principles:

- a) Students can register any time of the year.
- b) Each programme has a minimum and maximum duration to complete.
- c) Students have a number of assessment opportunities (examinations) during a study period and all modules can be written at each assessment opportunity.
- d) Students do not have a second examination opportunity directly after the first attempt. If they fail the first attempt (e.g. June), they can write the failed module during the next examination opportunity (e.g. November). A valid participation mark will give the student access to two examination opportunities, where after a student must generate a new participation mark.
- e) Contact classes are mainly presented by means of interactive white boards, supported by facilitators. Lectures can also be followed on a personal computer if students have access to the Internet. All modules presented by means of interactive white boards are stored on the Internet for students to access at a later stage.
- f) Students are supported by means of a Call Centre, social media (Facebook) and contact with lecturers and facilitators.
- g) Examinations are written at several examination centres throughout Southern Africa, but the NWU can request students to write a specific module (e.g. Computer Science) at the Potchefstroom Campus.

HUM.8.8.2 Admission requirement for the programme

In addition to the general entrance requirements as specified in General Rule A.2.2, a student must have an APS of at least 25 for students who matriculated after 2008 and a M-Score of at least 13 for learners matriculated before 2008.

A valid matric (Grade 12) certificate with University exemption is also a requirement.

Applicant must have passed the language of tuition (English) with the minimum symbol of:

- a) Symbol "D" (50% – 59%) if the Grade 12 was obtained after 2008 (National Senior Certificate)
- b) "E" (40% to 49%) Higher Grade (HG) if the matric was obtained before 2008 (Senior Certificate)

In cases of a matric certificate obtained before 2008, no endorsement of university exemption might appear on the certificate due to subjects chosen by the student. In those cases, an **"Aggregate"** is provided which is a summary of the symbols the candidate achieved holistically. The following aggregates apply:

- a) Aggregate with a "M" Symbol means matric with university exemption
- b) Aggregate with a "S" Symbol means matric without university exemption.

HUM.8.8.3 Mature age conditional exemption:

"An applicant may qualify for mature age conditional exemption by virtue of being over the age of 23 years. However, to qualify for exemption on the basis of being over the age of 23 years, an applicant must be in possession of a National Senior or Senior Certificate and must have passed four matric subjects, including one of the official languages - one of which must be a higher grade (HG) subject" (Senior Certificate).

Applicants over the age of 45 don't need university exemption to register at NWU, but the applicant needs to apply to Universities South Africa (previously known as HESA) for university exemption before registration will be accepted and processed at the NWU. The APS-Score or M-Score and minimum language of tuition requirements explained also applies during these applications.

Exemption on grounds of post-school qualifications

"An applicant without matriculation exemption, but in possession of a valid National Senior Certificate or Senior Certificate, as well as a recognised three-year diploma issued by a South African University, College of Education or Technikon, accredited by CHE and SAQA may qualify for total exemption on grounds of post-matric qualifications obtained. This exemption should, however, be awarded after faculty specific requirements are considered".

HUM.8.8.3.1 Registration

In terms of the Open Distance Learning principle, students are permitted to register for the qualification at any stage during the academic year.

HUM.8.8.3.2 Examination opportunities

Open Distance students are awarded two opportunities during an academic year to write their examinations, namely June and November. In accordance with the Open Distance Learning policy, students are not awarded a second opportunity to sit for a supplementary examination directly after the main examination. Students who failed the main examination will be awarded a second opportunity during the next main examination period. If the student, for example failed his or her examination during the June examinations will be

awarded an opportunity to sit for the next examination scheduled for November the same academic year.

If the student failed the June examination and would like to utilise the November opportunity, they retain their attendance mark and they also don't have to re-register for the second semester, nor to re-submit an assignment during that second semester.

HUM.8.8.3.3 Calculation of attendance mark

The level of participation of the student during the semester is determined by means of formative assessment, submitting an assignment or two. This assignment should be submitted to the University for evaluation and assessment purposes. If the student successfully passes the assignment, an attendance mark is awarded. This assignment not only awards an attendance mark to the student, but it also contributes 50% towards the students' final semester mark. This requirement is explained fully in the study material and it remains the responsibility of the student to acquaint him or herself with the contents thereof.

HUM.8.8.3.4 Requirements to pass a module

- a) The pass requirement with regard to the formative assessment (assignment) during the semester is 40%.
- b) The pass requirement with regard to the semester summative assessment or the written examination is also 40%.
- c) The pass requirement with regard to the overall module and final semester mark is 50%.

HUM.8.9 PROGRAMME 1DU H01 - L302P: POLICING PRACTICE (PHASING IN FROM 2018)

HUM.8.9.1.1 Programme outcomes

On completion of this programme, students should be able to:

- a) Strategically lead and manage human, financial, physical and information resources through effective organisational relations and practices to achieve strategic goals.
- b) Manage crime prevention by utilising specialised management skills in order to function strategically and effectively within a range of situations such as security and protection interventions as well as crowd control and management interventions.
- c) Manage crime detection by utilising specialised management skills in order to function strategically and effectively within a range of situations.
- d) Manage Community Service Centres (CSC) by utilising specialised management skills in order to function strategically and effectively within a range of situations.
- e) Manage the provision of protection, security and crime intelligence services for a safe and secure environment within the Republic of South Africa.
- f) Manage internal quality management systems to enable the organisation to reflect on whether organisational needs have been met.

- As of 2014, Students registered for B Soc Sc in Psychology (1st, 2nd and 3rd year of studies) are not required to register for ECON 112 and 121 since these modules have been removed from the programme. Only those who had registered for these two modules prior to 2014 are expected to register and pass these modules in order to graduate.

PROGRAMMES IN THE SCHOOL OF SOCIAL SCIENCES PHASING OUT FROM 2018

All second year columns in the programme under this heading must be blocked out in 2019 in the same manner as what the first year column was blocked out for the 2018 yearbook.

HUM.14.2 PROGRAMME 909 100 - L301P: INDIVIDUAL AND SOCIETY (PHASING OUT FROM 2018)

HUM.14.2.1 Programme outcomes

On completion of this programme, students should understand the functioning of the individual and society and how they are related and should be able to apply this knowledge in careers that require analytical thought processes and competence to deal with the individual and society.

HUM.14.2.2 Faculty-specific rules for the programme

In programme L301P the majors are Psychology and either History or Social Anthropology or Sociology. The ancillary subjects that can be taken up to level 2, can be selected from History, Sociology and Social Anthropology [if these subjects are not taken as majors], and Political Studies, Geography and Environmental Studies, Afrikaans and Dutch, English, Philosophy, History of Art and Setswana. Communication may be taken as ancillary subject on level one. These options may be limited by the time table.

Modules must be selected as follows:

Year level 1, first semester:

ABCD1: One of the following as major: HIST112, SANL112, SOCL111

ABCD2: Two of the following not already included in the programme:

HIST112, POLI112, SANL112, SOCL111, AFL111, ENLL111, KSGS113, PHIL112, ATSN111

ABCD3: One of the following not already included in the programme:

HIST112, POLI112, SANL112, SOCL111, GEOG 111, AFL111, KCOM112, ENLL111, KSGS113, PHIL112, ATSN111

Year level 1, second semester:

ABCD4: One of the following modules, succeeding the module elected as major in ABCD1: HIST123, SANL122, SOCL121

ABCD5: Two of the following modules, succeeding those elected as

ABCD2: HIST123, POLI123, SANL122, SOCL121, AFL121, ENLL121, KSGS122, PHIL122, ATSN121

ABCD6: One of the following modules, succeeding the module elected as

ABCD3: HIST123, POLI123, SANL122, SOCL121, GEOG 121, AFL121, KCOM122, ENLL121, KSGS122, PHIL122, ATSN121

Year level 2, first semester:

ABCD7: The applicable level 2 module of the major elected as ABCD1:

HIST213, SANL213, SOCY211

ABCD8: The applicable level 2 module of one of the subjects elected as

ABCD2 or ABCD3: HIST213, POLI213, SANL213, SOCY211, AFL121, ENLL211, KSGS212, PHIL212, ATSN211

Year level 2, second semester:

ABCD9: The applicable level 2 module of the major elected as ABCD1: HIST223, SANL223 or SANL225, SOCY221 or SOCL222 or SOCL224

ABCD10: The applicable level 2 module of the subject elected as ABCD8: HIST223, POLI223, SANL223 or SANL 225, SOCY221 or SOCL222 or SOCL224, AFL222, ENLL221, KSGS222, PHIL222, ATSN221

Year level 3, first semester:

ABCD11: The applicable level 3 module(s) of the major elected as ABCD1: HIST312, SANL313, SANL314, SOCL311 and SOCL312

Year level 3, second semester:

ABCD12: The applicable level 3 module(s) of the major elected as ABCD1: HIST323, SANL323, two of SOCL324, 327 and 328

- a) A student must meet the general admission requirements as specified in Academic Rule 2.2.
- b) A student must have an APS of at least 24.

HUM.21.1.2 Outcomes for Literature

The programme aims to develop scientific insight and knowledge in the language and literatures of specific languages. This entails the following:

- the development of the ability to acquire independently, master, apply, analyse, integrate and evaluate in a fundamental manner the knowledge of the language and literatures of specific languages
- the development of the ability to describe, understand and evaluate critically the theoretical frameworks within which language and literature are studied
- the development of skills to apply the acquired knowledge and insight in practice
- the development of skills in the use of foreign languages
- the development of the ability to mediate effective communication through the production and improvement of texts
- the development of the ability to identify and solve problems related to language and literature in a critical and creative manner
- the development of the ability to recognise, understand and communicate the cultural diversity of SA and the world manifested in language and literature
- the development of sensitivity and respect for the language and literature of other languages and cultures.

HUM.21.2 PROGRAMME: LANGUAGE AND LITERARY STUDIES 100 140 – L349V

HUM.21.2.1 Programme outcomes for Language Practice curricula

Upon completion of this programme, students should:

- possess a systematic and thorough knowledge of translation (including computer-assisted translation), editing, subtitling, audio-description and interpreting as sub disciplines within Language Practice

- possess an informed understanding of key terms, concepts, principles and theories in the various sub disciplines in language practice, and demonstrate the ability to relate developments in the various sub disciplines to one another
- understand the role and position of translation, editing, subtitling, audio-description and interpreting in the multilingual and multicultural South African, African and global society, with particular emphasis on the dimension of ethics
- apply the essential methods, techniques and procedures in Language Practice effectively in the practical translation and editing of selected real-life spoken, written and audio-visual texts, with particular emphasis on linguistic, cultural, entrepreneurial and technological skills
- use the latest computer-assisted translation (CAT) tools as well as other computer-related resources relevant to different types of professional language work effectively and responsibly
- apply practical and theoretical Language Practice knowledge and skills in solving familiar and unfamiliar, concrete and abstract language-practice problems in a familiar context, by using resources responsibly and effectively, and assess and adapt solutions to particular contexts
- collect, analyse, synthesise and evaluate information on various topics in Language Practice effectively and responsibly
- communicate information coherently by applying the basic conventions of academic discourse (e.g. in essay writing) and professional conventions (e.g. in translation annotations), and by making use of appropriate technological aids be committed to a process of life-long learning, specifically with reference to social, economic, political, and technological developments in the language professions.

HUM.25.2.4 Programme Outcomes

After completing this programme the student will possess well-rounded knowledge and skills in music and will be able to perform effectively as an educator and musician within the society.

HUM.25.2.4.1 Faculty-specific rules for the programme

- a) Concert attendance is an integral part of music training at the North-West University. Full-time music students registered for practical modules are therefore expected to attend the prescribed number of student

assemblies and concerts presented in the School of Music's official concert series for its full duration.

- b) Students who fail to attend the prescribed number of student assemblies and concerts during the year will not receive a proof of participation for the specific practical module.
- c) For the performance modules in this programme (MZSU177, MZSU277, MZSU377), sufficient class attendance and participation in the practical lessons as well as an applicable ensemble are required. In addition the student must also pass the Ensemble Studies module (new programme for 2018 first years) to get admission to the practical examination. Students have to participate in all practical lessons, rehearsals and ensemble concerts in order to receive a proof of participation for the relevant module. Even with valid excuses for absence, attendance of at least 80% is required for examination admission (the director of the School of Music may evaluate these cases).

Rule regarding examination opportunities:

It is compulsory for students to make use of the first examination opportunity for the performance modules in this programme. The second examination opportunity will only become applicable when the student failed the first opportunity or could not participate in the first examination opportunity due to illness or any other valid excuse accepted by the School director.

HUM.27 BACHELOR OF MUSIC

HUM.27.1 DURATION (MINIMUM AND MAXIMUM DURATION)

The minimum study period for this qualification is four years and the maximum duration is five years.

HUM.27.2 ADMISSION REQUIREMENTS FOR THE QUALIFICATION AND THE PROGRAMME

In addition to the requirements set out in Academic Rule 1.5.the following entrance requirements apply:

- a) APS score of at least 24
- b) grade VII in one instrument and grade V in theory (UNISA), or at least 60% (level 5) in Music as a designated NSC subject, or some other equivalent standard in Music approved by the Senate;
- c) a practical audition and a theoretical placement test must be taken successfully.

HUM.27.3 PROGRAMME: BACHELOR OF MUSIC: L416P

The programme for this qualification is offered **full-time only**.

HUM.27.3.1.1 Programme outcomes

At the end of the study the student will be able to apply successfully basic knowledge and techniques within the field of music, and particularly with regard to his/her speciality, and to communicate effectively about it both orally and in writing.

HUM.27.3.1.2 Faculty-specific rules for the programme

- a) Concert attendance is an integral part of music training at the North-West University. Therefore, all music students registered for practical modules are expected to attend the prescribed number of student assemblies and concerts presented in the School of Music's official concert series and to stay for the full length of the concert.
- b) Students who fail to attend the prescribed number of student assemblies and concerts during the year will not get proof of participation for the specific practical module.
- c) For the performance modules in this programme (MUSU174, MUSU274, MUSU374/6, MUSU474/6, MUSP174, MUSP274), sufficient class attendance and participation in the practical lessons as well as an applicable ensemble are required. In addition the student must also pass the Ensemble Studies module (new programme for 2018 first years) to get admission to the practical examination. Students have to participate in all practical lessons, rehearsals and ensemble concerts in order to receive a proof of participation for the relevant module. Even with valid excuses for absence, attendance of at least 80% is required for examination admission (the director of the School of Music may evaluate these cases).
- d) See L.6.3.3.2 for the rules for compilation of the programme and the compulsory subject combinations.

Rule regarding the first examination opportunities:

It is compulsory for students to make use of the first examination opportunity for the performance modules in this programme. The second examination opportunity will only become applicable when the student failed the first opportunity or could not participate in the first examination opportunity due to illness or any other valid excuse accepted by the School director.
